

# INDUSTRY FOCUS: HIGH TECH

## Challenges to your Supply Chain:

Your operations team tackles a host of unique industry challenges that can slow down your company supply chain and hurt profits.

Complex sourcing of parts creates delays

Shrinking product lifecycles

Lot traceability issues

Constantly changing features

Tightening regulatory requirements

## The OpsVeda High Tech Industry Solution:

*Because shorter product life-cycles call for greater operational agility.*

OpsVeda's AI-powered, Operational Intelligence Platform tells you in real-time what part of your revenue, margin, or inventory is at risk, and how to optimize outcomes.

### SEMICONDUCTOR MANUFACTURER

- Complete batch genealogy with up/down-stream traceability
- Real-time view of process health - yield & variances
- Equipment usage and availability matrices

### COMPONENT DISTRIBUTORS

- Prescriptive backlog handling through demand & supply matching
- Monitoring of unconfirmed orders
- Dynamic rerouting based on demand changes

### PRODUCT DISTRIBUTION

- Real-time exception management for sales operations
- Samples tracking from request to return / scrap
- Support for demand gen with design registration, ship & debit processes

### RETAIL SALES MANAGEMENT

- On-shelf availability & sell-through rate related alerts
- Time on-shelf analysis & retail inventory optimization
- Instant track & trace to identify recalled lots / units and their locations

...and more!

*What you know matters. When you know matters more.*
