

# INDUSTRY FOCUS: INDUSTRIALS & AEROSPACE

## Challenges to your Supply Chain:

Your operations team tackles a host of unique industry challenges that can slow down your company supply chain and hurt profits.

Multiple ERP's

Sourcing of raw materials

Product complexity

Coping with modernization & emerging technologies

Integration with outdated backend systems

## OpsVeda Industrials & Aerospace Industry Solution:

*Intelligent information access for manufacturing & support of complex products*

OpsVeda's AI-powered, Operational Intelligence Platform tells you in real-time what part of your revenue, margin, or inventory is at risk, and how to optimize outcomes.

### Supply Management- Direct Materials, Engineered Goods

- Early alerts on delays based on trends, acknowledgements, ASN & GR postings
- Serial tracking & traceability
- Vendor timeliness, fill-rate, & quality analysis
- Real-time view of all procurement KPIs

### Manufacturing & Sales Operations

- Instant serial no. track and trace for up/downstream visibility of (sub-) components
- Monitoring of production schedule & cost
- Equipment maintenance & repair performance
- Spares replenishment via sensor data

### Shipments

- Carrier/Shipping alliance and route performance analysis, expeditor integration
- Inventory-location mix analysis and re-alignment prescription
- Impact assessment of delay on downstream processes with corrective prescriptions

### Customer Management

- Product availability, SLA monitoring and related alerts
- Track and trace for recalls, reliability on field related alerts
- Spares inventory alerts - Product performance (sensor) & consumption data

...and more!

*What you know matters. When you know matters more.*
